

Enhance Your Images With the FLUOVIEW™ FV4000 Confocal Microscope

Join Us for an Exclusive Demonstration of the New FV4000 Confocal Microscope!

Discover the cutting-edge technology of the new FV4000 confocal microscope at the IHU-Liryc platform. This is a unique opportunity to experience high-performance imaging in action.

Experience System Innovations

- Game-changing dynamic range for imaging from the macro scale to subcellular structures
- Multiplex up to six channels simultaneously with TruSpectral™ technology
- Peace of mind with the reliable, repeatable SiVIR detector

Date

1st to 3rd July 2025
